

ATLANTA QUIET AFTER CARNAGE

Eighteen Victims Black and White Reported.

Citizens Call for Closing of Dives and Protection of All People in City.

FOUR COMPANIES OF MILITIA

Atlanta, Ga., Sept. 26.—Known dead who have met death with riots here since last Saturday night number one white man and 18 negroes. To this number might be added the name of Mrs. Robert P. Thompson, a respectable white woman who drownded Monday evening after seeing two negroes shot and beaten in front of her home.

The main event was the ordering into the city of four companies of militia from outside points, Governor Terrell saying it was a matter of precaution rather than pressing necessity.

To Close Dives.

Atlanta, Sept. 26.—A largely-attended meeting of representative citizens was held at the chamber of commerce rooms at noon today. Resolutions were adopted unanimously calling upon the mayor and the general council to close all dives, restaurants, saloons, pool and club rooms frequented by negroes. The resolutions ask that licenses for all these places be revoked and the places be kept closed permanently. Several prominent preachers attended the meeting by invitation and spoke in condemnation of the outrages committed by both races. They promise to use their influence to quiet the members of their race, and asked that protection be afforded to innocent negroes, as well as to whites.

APACHE INDIANS

Will Remain at Fort Sill Military Reservation.

Lawton, Okla., Sept. 26.—John Loco, one of the best-educated and most prominent leaders of the Apache tribe of Indians, has just completed a fifteen days' sojourn through New Mexico and Arizona for the purpose of investigating conditions in these territories, looking to the removal of the Apaches from the Fort Sill military reservation to these territories. This was their old stamping grounds, but Loco was so unfavorably impressed with the conditions that he will not suggest the change.

FIGHT AT CRETE.

And Sailors From British Cruiser Restore Order.

Athens, Greece, Sept. 26.—Serious fighting occurred between the insurgents and international troops stationed at Crete today, on occasion of the retirement of Prince George, of Greece, as high Commissioner of the powers on the island. The robbers escaped. Boyd came here to attend the Bryan celebration.

It is the daily average circulation of a newspaper that the shrewd advertiser investigates—“High Water” days don't count. The Sun's daily average last month was 3940.

“THE CLANSMAN” BARRED.

Cannot Show in Macon, and in All Georgia.

Macon, Ga., Sept. 26.—Thomas Dixon's play, “The Clansman,” booked to appear in the theaters here Wednesday night, will not be permitted to appear by order of the mayor. In view of the race riots in Atlanta, it is deemed unwise to let “The Clansman” appear. Steps will be taken, it is said, to keep the show out of the theaters of Georgia. The public is not favorable to a second appearance.

DIE OF FEAR

BOMBS AND POISON NOT NEEDED TO KILL THESE.

American Legation in Danger From Finnish Revolutionists Bent On Loot.

Stockholm, Sept. 26.—The American legation although not the direct object of the planned outrage, had a narrow escape from being blown up by the Finnish revolutionists who were arrested here September 22, and was only saved by the timely arrest of the conspirators. It appears that the latter intended to rob the State bank, occupying part of the same premises as the legation.

Officials Die From Fright.

New York, Sept. 26.—A special dispatch to the Times from Paris states that in a letter from St. Petersburg, Prof. Alexandra Ular, who is regarded in Paris as the mouthpiece of Count Witte, says that many of the highest Russian functionaries are dying from fright or are on the point of escaping from the country. In their case bombs and knives are no longer necessary. Prof. Ular says that Gen. Skalon, governor-general of Poland, with the drums of both his ears destroyed by the explosion of a bomb, is in a state of imbecile collapse, and probably will be succeeded by Gen. Rennenkampf. Admiral Dubassoff, author of “The Horrors at Moscow” whose leg was blown off, has received a present of 1,000,000 roubles (\$50,000) from the czar in compensation, but his repressive zeal is at an end, and he has decided to spend the rest of his life in foreign watering places.

TWO CANDIDATES FOR FIRST PLACE

Judge Bagby and President McBroom Mentioned.

Full City Ticket Will Be Named By Republicans in Paducah This Fall.

WILD GUESS IS EXPLODED

The wild guess indulged in by a local paper that the Republican city ticket would have to be named today aroused interest in the make-up of the ticket, and even since the belief that the convention must be held at once has been dissipated, public speculation continues.

Nearly all the members of the three boards, whose terms expire will accept nomination if it is offered them. None of them sought his place the first time and none is seeking office this year; but the public feels that the members are entitled to remain by reason of their record.

Councilman Kolb, representing the Third ward, it is said, may decline a nomination, and President McBroom of the lower board is inclined to forego further councilmanic honors. These are the only two known absolutely to refuse to run.

The announcement that a full ticket will be put in the field has met with favor among Democrats and Republicans alike, and the police judgeship promises to be a sharp contest. Judge E. W. Bagby and President McBroom, of the board of councilmen, are mentioned and both have been importuned by friends, irrespective of party, to announce. Either, it is believed, would be able to defeat Mr. Cross, and would add strength to the ticket.

Other drills besides the musical drill will be featured and practice for all of them will be held nightly until the horse show.

IN BANKRUPTCY PROCEEDINGS ON

Rehkopf Creditors Start on a New Tack.

Another Suit Is Filed to Recover on Recent Claim for More Than \$11,000.

HOW MATTERS STAND TODAY

Creditors of the Rehkopf Saddlery company are the busiest men in the city and by reason of their efforts to secure advantage in the settlement of the debts of the concern, the situation is complicated beyond immediate solution.

It is probable that the creditors of the E. Rehkopf Saddlery company will apply this week to the district court for a temporary receiver, for all the property of that concern. Attorneys J. D. McQuot and W. V. Eaton are representing all the petitioning creditors.

Deputy Sheriff Gus Rogers and Clark Portson found the property at the Cohankus Manufacturing company held for the Starks-Ullman Saddlery company and seized it by proper process of law for the assignee of the E. Rehkopf Saddlery company. Shortly afterward the Starks-Ullman company gave bond for the goods attached. It is mostly leather.

Into Bankruptcy.

D. L. VanCullin, of this city, associated with the Pfister-Vogel company of Massachusetts, and the Linen Thread company of Boston, have taken steps to force the firm of E. Rehkopf Saddlery company, which recently assigned to R. J. Barber, into bankruptcy. The step was taken yesterday when the papers were filed in the federal court at Louisville.

The Paducah merchant's claim is \$15.75, the Thread company's claim \$100, and a third firm's claim \$5,000. Papers reached Paducah yesterday afternoon and were served by Wade Brown, United States deputy marshal. The concern is directed to appear in Louisville on October 4, to show cause why it shall not be forced into bankruptcy.

This is a step that was predicted the day of the filing of the deed of assignment. Many complications have arisen in the case, one being the attachment yesterday of \$30,000 worth of assets alleged to be held in a north side warehouse. Many suits have followed the assignment and the latest are the International Harness company's claim of \$149.38, and Faets-Reynolds company's claim of \$289.94.

In no instance has an action been filed against E. Rehkopf individually. James Salen, executor of the estate of M. R. Kirkpatrick, doing business under the name of J. T. Kirkpatrick & company, filed suit today against the E. Rehkopf Saddlery company for \$11,018 for goods alleged to have been delivered recently.

HEAD OF BUREAU OF IMMIGRATION

Will Attend Convention Here on October 5.

Commissioner-General F. M. Sargent Accepts Invitation to Address Meeting.

BEST INFORMED ON SUBJECT.

Capping the climax of success, which has attended the efforts of the promoters of the Southwestern Kentucky immigration movement from its inception, the committee is now assured of the presence of Commissioner General F. M. Sargent, chief of the bureau of immigration and naturalization, department of commerce and labor. Mr. Sargent says he will address the convention here Friday afternoon, October 5.

Better than any other person in the world, Commissioner Sargent is acquainted with the immigration problem in all its phases. He knows the value of their labor, the best means of securing a desirable class, how to distinguish them and all the laws on the subject.

Commissioner Sargent is a busy man and it was with little hope an invitation was addressed to him; but he promptly responded in the affirmative, as the following letter received this morning by Secretary D. W. Coons, of the Commercial club, shows:

“In response to your letter of the 7th instant, extending to me an invitation to address your convention, and which was brought to my attention by the acting commissioner-general on my return to the bureau, I wish to say that, unless something unforeseen intervenes to prevent, I shall be pleased to make an informal address on the subject of immigration before your convention on Friday, October 5th.” Resp. fully.

F. M. SARGENT,
“Commissioner-General.”

In case of good behavior, these sentences will amount to ten years.

Chicago, Sept. 26.—Paul O. Stensland, former president of the Milwaukee Avenue State bank, broken in spirit, arrived this morning in custody of officers. A large crowd of depositors was at the station and an attempt was made to mob the man who looted it, but officers succeeded in getting him safely to the county building.

Was Allowed to Attend the Funeral of Her Husband.

Lafayette, Ind., Sept. 26.—Because Alice Cooper Lawson, slayer of her husband, was allowed to attend Charles A. Lawson's funeral there is severe criticism of the police and sheriff. Mrs. Lawson, for the first time since she stood in the doorway of Lawson's Columbia street saloon and deliberately shot him down, showed considerable emotion at the funeral.

BRILLIANT OPENING

FALL DISPLAYS OF RUDY, PHILLIPS & CO. ON EXHIBITION.

Big Store Has Been the Mecca for Shoppers Today and Yesterday—Season On.

The new seasons are welcomed by everybody, but more probably by the fair sex.

The new seasons bring the new clothes—the new hats, the new wraps, and all those things that go to make up fair woman's costume, and nothing is more appreciated than the exhibitions of the different season's offerings.

Yesterday and today, and continuing tomorrow, Rudy, Phillips & company are holding their opening of fall goods in each department, and the store has been crowded with shoppers keen to see what the season has new for them.

The store is beautifully decorated for the occasion in golden rod, sprays of running vines and cut flowers.

The displays in each department are probably the handsomest ever shown in Paducah, and the millinery, and dry goods and shoe departments have especially been points of interest for the callers.

The displays of wraps and evening gowns, and dresses for the horse show probably lead in the attention received, but every department comes in for generous attention.

Those who have not attended the opening should take advantage of the opportunity the continuance of the opening tomorrow offers.

Will Be Heard Thursday.

Frankfort, Ky., Sept. 26.—The injunction suit brought by the Louisville, Newport and other national banks against the board of valuation and assessment, will be heard before Judge Cochran in the federal court Thursday. PALMA RESIGNS HIS CHAIR FRIDAY

American Soldiers Will Then Garrison Island.

Secretary Taft Will Be in Supreme Authority Until New Election Is Held.

ANARCHY IN THE REPUBLIC

Havana, Sept. 26.—The Palma government's resignation is the signal that calls for American navy and army control of Cuban affairs. It will place Secretary Taft in the palace, and war forces will garrison and take up the field. Business men favor intervention, insisting that Cubans welcome American occupation.

Havana, Sept. 26.—At the close of a meeting of fifty of the moderate leaders held last evening it was announced that President Palma, Vice-President Mendez Capote and the moderate senators and representatives would all resign their offices, and that possibly President Palma would call congress tomorrow and place the resignations in its hands.

Washington, Sept. 26.—The invasion of Cuba by the United States troops, as well as naval forces, is now practically assured. Orders were issued by the war department covering all details. As soon as President Roosevelt gives the word orders to move will be issued and within an hour's time 6,000 men will be on the way to the point of debarkation. Orders were received at the war department from the president at Oyster Bay to have the army ready to move to Cuba on the shortest possible notice.

Plan to Send Troops.

Oyster Bay, N. Y., Sept. 26.—Plans for the transfer of troops to Cuba in the event of failure of Taft's mission have been completed. The final step was taken today, according to the announcement made here tonight, when the transport Summer, now lying at the New York navy yard, was put in commission. The Summer is in readiness for immediate embarkation of troops. Negotiations already are under way for the acquisition of merchant steamers to be used as transports.

Need Protection.

Havana, Sept. 26.—There is urgent need for thousands of United States soldiers and marines in Cuba. Anarchy reigns throughout the interior, looting of estates especially of foreigners, is reported in many sections. For the present the distressing political situation almost forgotten in fresh troubles, which have arisen from acts of marauding parties operating in unprotected parts of the country.

Liberal Leader Zayas charges the administration with treason in delivering the government to American officials. Other moderates are nouncing the peace commission for favoring the rebels. The commission is disposed to criticize the government for refusing to consider peace terms. Probably there will be no quorum of congress Friday. Moderates are advising absenteeism to suspend the government and allow Americans to seize it. If congress has a quorum the election of a new president and vice president is probable.

Terms of Peace.

Havana, Sept. 26.—Peace, it is now reported, will be made on the following terms: The elections held last December are to be annulled; Vice-President Capote is to resign; all the municipal officers who were thrown out by Speaker Freyre Andrade are to be reinstated, and all arms turned in. It is the general opinion of merchants, bankers and others that Secretary Taft is here to fix up peace by any means, and that he has carried out his instructions. They fear, however, that peace will not last. Secretary Taft, through Capt. McCoy, requested Gen. Pino Guerra to protect the Americans in his territory. The general replied that he would, and issued the necessary orders today. American officers inspected all the fortifications and roads around Havana yesterday.

ANY DEPUTIES TO KEEP ORDER

Negroes Make Reprisals and Mob Again Asserts Itself—School Under Arrest.

ARMS SENT FROM BIRMINGHAM

Birmingham, Ala., Sept. 25.—Every train from Atlanta is bringing panic-stricken negroes. Two hundred have arrived since midnight; others are on their way. Rifles and ammunition are being shipped to Atlanta from here today.

Negroes Retaliate.
Atlanta, Ga., Sept. 25.—While a party of county policemen were tonight riding by an alley in South Atlanta, near the Clark university, a negro institution, they were fired upon by a party of negroes. County Policeman Heard was killed, three other officers were wounded and one is missing.

The force which accompanied him captured ten of the attacking party. Four escaped but six were put aboard street cars under a guard of police and deputies and started for jail. At Crews street a mob stopped the car. Two of the prisoners made a dash for liberty. The mob caught them in the front yard of the home occupied by Mrs. R. Thompson, a highly respected white woman. The negroes were cut and beaten and left for dead.

Mrs. Thompson, watching the scene from the porch of her home, dropped dead, as a result of the shock, following the excitement. The police succeeded in bringing the other negroes to town and they are now in jail. Later it was discovered that Sanders and Brooks, the negroes, were not dead and they were brought to the city and are now reported dying.

Hundreds of negroes who have remained in the city since Saturday night left today but the number was small in comparison with those who have remained and who stoutly, though secretly declare that they intend to fight for their rights and their lives.

Laporte, Ind., Sept. 22.—A bill of complaint was filed in the federal court today by the Northern Trust company of Chicago and Arthur Heurley of Chicago against the Laporte Water Supply company and the city of Laporte. The plaintiffs relate that they are trustees of a bond issue by the water company of 65 first mortgage bonds of \$1,000 each that were payable at intervals beginning June 1, 1901, and ending June 1, 1917. The company asks that a receiver be appointed, the city having been enjoined from paying the bonds by private individuals, and the city shall be ordered to levy a special tax upon all taxables of the city for such length of time as may be necessary to pay off the alleged indebtedness of the city to the water company.

Agricultural Department After Bid to Eclipse Laying Record.

Washington, Sept. 25.—Who owns the champion egg-layer of all hens? This question is raised by the agricultural department through the temporary awarding of the prize to a fowl possessed by a worthy citizen of Alexandria, Va. The award is subject to revision and later returns may deprive the proud Alexandria of his laurels. The Virginia champion has since October 5, 1905, 291 eggs to her credit and before the close of the year will cross the 300 mark. Exclusive of the moulting season the hen has laid an egg every 25 hours.

Verdict for \$1,000 for Alleged Libel Awarded.

Mark Worten, the well-known attorney, who sued the Register Publishing company, for alleged libel in the circuit court of Livingston county, was awarded a verdict for \$1,000 damages by the jury today. The judge gave the jury peremptory instructions. It is stated. The judgment carries with it the costs, amounting to several hundred dollars. Both sides took a crowd of witnesses down and the trial has been in progress nearly two weeks. Bonds were chartered to take them down the expenses of some of the witnesses being borne by the litigants. The cause of action arose out of comments concerning Mr. Worten in connection with the suits brought against the city for alleged peonage for working prisoners on the chain gang.

New York, Sept. 25.—John Mitchell, president of the United Mine Workers of America, and Samuel Gompers, president of the American Federation of Labor, had a conference in this city today after a meeting of one of the sub-divisions of the civic federation. Mr. Gompers afterwards said to a reporter: "So far as published statements concerning a breach between Mr. Mitchell and myself are concerned, I can say that there is no truth in them. In the past he and I have worked in harmony all the time and I trust the future has no change in our pleasant relations." Mr. Mitchell, who was present, said: "There is not the slightest basis for such reports."

The full skeleton was wired together. The vertebrae of the other was still held together by cartilage. With the bones was a piece of human skin about a foot long, evidently from a forearm. On the contrary, the foreign office declared specifically that nothing of the sort has been suggested from any quarter.

IN FARMER'S HAN IS ASSOCIATION

State Contents of Articles of Agreement of New Organization of Planters.

CLAIM IT IS AN IMPROVEMENT.

The executive committee sends the following communication to the members of the Dark Tobacco Planters' Protective association:

It is very well, that the new charter proposed for the association should have been so thoroughly discussed, both by friend and foe, before the executive committee was called on to accept or reject it.

It may be conceded that the parties who would be glad to see the association fail, have found all the vulnerable spots, in the new charter and have held them up to public scrutiny and magnified every so-called defect a hundred fold. After all that has been written and said after circular after circular had been printed and placed in the hands of the rank and file of the association for distribution among the farmers and tobacco growers, the executive committee elected by the voice of the ballots of the farmers, not thirty days ago, met at Guthrie on last Saturday, and unanimously adopted the new charter.

It is not to be supposed that the legislative council of the association would rush headlong into a business proposition or enterprise without careful and painstaking consideration. Every fault of which the opposition had made note, was considered thoroughly and without bias.

The committee has no motive on earth to act, save for the good of the tobacco growers. Can the opposition to the association say as much? The public is aware that the Tobacco Growers' association, when formed broke all precedents, and was an organization, the like of which, the world had never seen before. Provision is made the stock in said corporation, shall be owned by the executive committee, each committee man to own three shares of stock. That he shall pay one dollar per share, no more nor no less, that said stock shall not be sold to any other party, than a committeeman duly elected by the rules of the constitution of the association. That a retiring committeeman and director of the corporation, shall sell and transfer his three shares of stock at par or one dollar per share, to his successor in office; that this corporation having been chartered, not for profit, but to aid and assist the tobacco grower in obtaining better prices for his tobacco at reduced cost of selling, no dividend shall be declared on said stock. It is further provided that only a sufficient commission shall be collected to pay the legitimate expenses of conducting the affairs of the association, and that in the event the association ceases to operate, then the surplus, if any is to be distributed, not to the stockholders, but to the parties from whom it has been collected as commissions on sales. It is further provided that all the above restrictions, conditions and limitations, are to be placed in the face of the certificate of stock issued by said corporation and the stockholder, who purchases the stock accepts it with the conditions therein stated.

So it will be seen that we have at last reached a solution whereby the executive committee of the association, elected directly by the votes of the farmers, cast at the several voting precincts, becomes the board of directors of the corporation, and as such, absolutely control the affairs of the corporation. The farmer votes for the district chairman, and the district chairman vote for the executive committeeman or county chairman, who by virtue of his election becomes a member of the board of directors, and stockholder in the same corporation, under the rules of the new charter.

The executive committee now is, and always has been, the law-making power, and under the new charter, and the rules adopted by it, the powers of the executive committee has not been increased or abridged. The Charter. These are the provisions of the new charter, every false statement to the contrary notwithstanding. Whereas, The Planters' Protective Association of Kentucky, Tennessee and Virginia was not organized for profit to its stockholders, but solely for the purpose of aiding the tobacco farmers of said states to sell their tobacco through said association, in order to more effectually fight a depression of prices, by the tobacco trust.

Therefore, the stockholders of said Planters' Protective Association of Kentucky, Tennessee and Virginia, do hereby agree with it, and with each other, to conduct the business of said association, solely to accomplish the above object. They further agree that no dividend or division of profits, if any should ever arise, shall

ever be declared or paid upon any of its capital stock, and every subscriber to, and every purchaser of, said capital stock, accepts his stock with this condition and shall hold same under this agreement and with this understanding.

Every director in this corporation shall subscribe and pay, for three shares of stock at one dollar per share and shall hold same under this agreement and understanding, and when his term of office shall expire and his successor shall be elected, he shall sell and transfer his stock to his successor at the same price, to be held by such successor, as herein provided.

It is further agreed that all sales of shares of the stock of this association shall be void, without the consent of the board of directors thereto given in regular meeting of said directors, the stock shall be issued and accepted on this condition.

It is further agreed that the president, general manager, secretary and treasurer shall have the right to sit in the meeting of the board of directors and have the right to participate in the proceedings thereof.

All of the above conditions and provisions are hereby agreed to by all persons, who are now, or shall hereafter become shareholders in this association, shall accept and hold same subject to all of the above conditions and all of said conditions shall be fully set out in every certificate of stock.

A Big Meeting.

Preparations for the meeting of the members of the Planters' Protective association have gone on apace, and everything points to a perfect crush at Guthrie on the twenty-second. Reduced railroad rates, eminent orators, the best of music and last, but not least by any means, the steady progress toward perfect success has made the association a matter of greater interest than anything else that the agriculturists of this section have in mind today. The men, women and children of the tobacco district anticipate but one event today, the Guthrie meeting.

PREFERS SUICIDE TO CHICAGO.

Christopher Furst Kills Himself in Washington With Poison.

Washington, Sept. 25.—Rather than return to Chicago Christopher Furst 54 years old, committed suicide yesterday by taking strychnine and sulphur. Furst had been living for the last fifteen months with his stepbrother, Charles Otto. For some time he had been morose and Otto determined to send him to Chicago, thinking Furst was homesick. When told to prepare for the journey Furst went to his room and swallowed the poison. It is said Furst since boyhood had a suicidal mania. A brother and three sisters are said to live in Chicago.

Ten Killed and Forty Wounded in Race War of Georgia Capital—Citizens Condemn.

ASSAULTS ON WHITE WOMEN

ANOTHER LYNCHING.

Atlanta, Sept. 24.—Zeb Long, a negro, was lynched at 3 o'clock this morning at East Point for pointing a revolver at Night Marshal Harris at midnight. The city is quiet today. The governor declined to declare martial law for the present. A number of military companies are on guard and few negroes appear on the streets.

Atlanta, Ga., Sept. 24.—It is 36 hours since the race war began in Atlanta. At least ten lives have been sacrificed, and the injured number at least 40, several of whom cannot recover.

Last night the city was controlled by the police, aided by a thousand state militia.

Every part of the town was patrolled by the troops at the largest part of the militia is concentrated down town. Marietta and Decatur streets, both frequented by negroes, are crowded with white men. The troops constantly, trying to clear the streets, but so far with only fair success.

Very few of the better class of the citizens who are called out by necessity are on the streets tonight.

More than 50 arrests of members of last night's mobs have been made, charging incitement to riot. A bond of \$500 was required in each case. No names of prominence are in the list. Of the dead it is impossible to get names, only partial lists have been prepared and no two agree.

With but few exceptions the day passed without serious trouble, following the riots Saturday night, when, as a result of several assaults on white women by negroes, a mob of white men marched to the negro section of the city and started beating and killing all the blacks they encountered.

Unconfirmed rumors of several white men killed by negroes and a negro being torn to pieces by enraged whites are heard.

Governor Terrell, Saturday night, ordered to Atlanta seven companies of militia two companies from Macon and one each from Jackson, Barnesville, Griffin, Rome and Lindale. These are now on duty in the streets.

With the local companies of militia here the number of troops is something more than 1,000 besides a battery of light artillery.

Although urgently requested from many sources to declare martial law, Governor Terrell declined. He said that if scenes of last night are repeated he will not hesitate to put the military in supreme control.

Mayor Woodward urged that the city and county police, with the militia, was amply able to handle the situation. The local soldiers and police who have been on duty since midnight, are held in reserve tonight.

Mayor Woodward issued a request that all citizens, white and black remain off the streets. He announced he will order the saloons closed today. Boys under 21 are ordered to keep off the streets.

A meeting of bankers, business and professional men was held this afternoon. Governor Terrell, Mayor Woodward, Colonel Robert Lowry and Colonel James English were present. Speeches were warmly applauded in which the killing of innocent negroes and the injuring of a score or more whites and blacks was condemned as a reflection of the city, state and the south.

KNOX AIDS FRIEND OF BOYHOOD

Obtains Place on Federal Bench for Old Seat Mate at School.

Oyster Bay, Sept. 25.—United States Senator Knox disregarded all political obligations to obtain the appointment to the United States district court bench in Pennsylvania today of ex-Judge Nathaniel Ewing, of Fayette county, Pennsylvania. Mr. Ewing has not been on the bench for ten years, and was supposed to be out of politics. There were dozens of applicants for the place, but Senator Knox, who had the appointment, insisted that "Nat" Ewing, his seat mate in a country school forty-five years ago, should have the place. The vacancy was made by the decision of President Roosevelt to appoint Judge Joseph Buffington, of Pennsylvania, as judge of the third United States circuit, which includes Pennsylvania, New Jersey and Delaware.

Save One-Half Your Wood

If you have a

WILSON WOOD HEATER

your wood pile need be only half the size of your neighbor's who uses the "other kind." The patent Hot Blast Down-Draft found only in the Wilson makes it possible to get 100 per cent of heat from your fuel, the gases which ordinarily arise from the fuel and escape unburned up the chimney in other heaters, are all consumed in the Wilson. These gases constitute one-half the burnable part of the fuel. The Wilson burns anything—corn cobs, shavings, chips, bark, roots and cord wood.

The Wilson is air-tight, so readily responds to its dampers that an even temperature can be maintained throughout all the changes of our varied climate.

Remember, every day that you use the Wilson you are saving one-half your fuel bill.

TALK ABOUT PEACE AND PLAN FOR WAR

With Sunday Came First Ray of Hope for Ending Trouble Without Intervention.

COMMITTEES ARE APPOINTED

Havana, Sept. 24.—While talk in Cuba is all for peace, preparations on all sides are for warfare more active than at any time since the arrival of the American peace commissioners. It is generally conceded that the action of the government in bringing Colonel Avalos' men to Cuanay may cause a battle at any moment. The only interpretation put upon this movement is that the government wished to cause trouble, which would force active intervention by the United States. The situation undoubtedly is critical.

Many people have excellent morals, but the most odious ways.

RIOT OF STRIKERS AT STANDARD PLANT

Member of Sheriff's Posse Shot By Kuklux Near Whitesburg—Another Attempt.

HALL FACTION SECURES ARMS

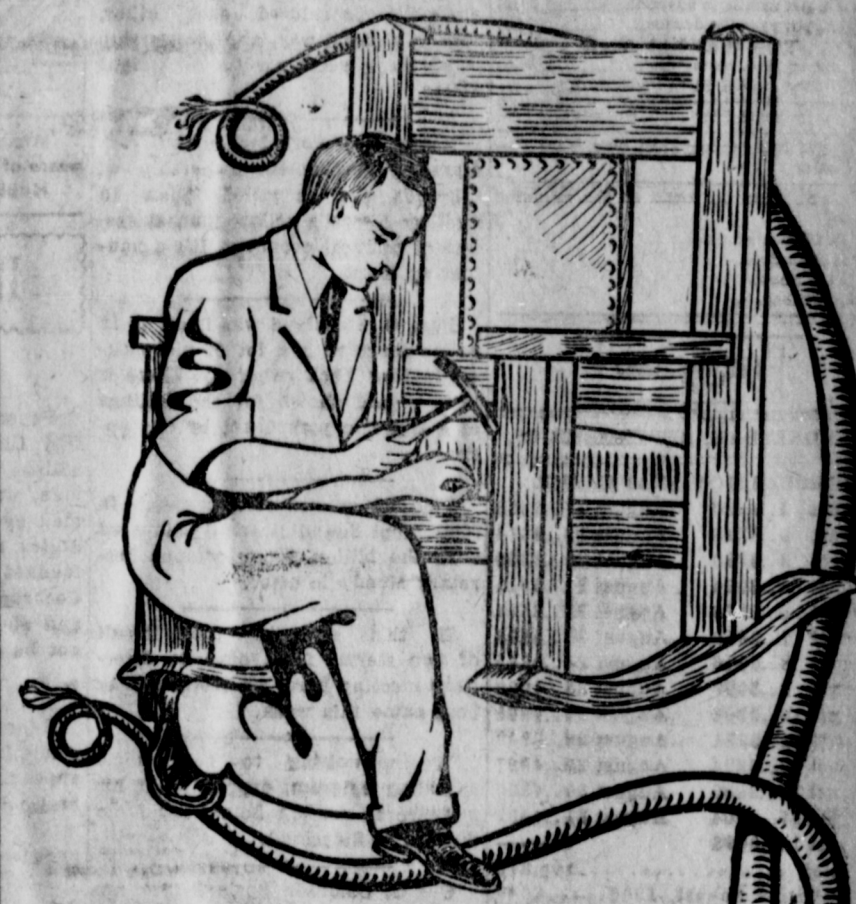

Whiting, Ind., Sept. 25.—In a riot today at the Standard Oil plant, in which several hundred union striking employees took part, a dozen persons were severely injured. The riot began when a party of non-union boiler-makers were set upon. Many suffered injuries when struck by stones and bricks, which flew through the air. The riot was at its height when a score of deputies arrived to protect the plant. The rioters fled. The Standard hopes to win the fight by the aid of an injunction granted by Judge Tuthill.

Perhaps he was romantic—the first condition of all unhappy persons.—The Dream and the Business.

Daily Thought.
"Strike straight from the shoulder
and make no apologies."

ARE WE RESPONSIBLE?
Lawlessness begets lawlessness,
nothing else. The terrible scenes enacted
in Atlanta are but the natural
and certain result of mob rule. Too
long we have acquiesced with violence
in the garb of civility, and in Atlanta,
where one newspaper editor attacked
the hideous doctrine of the mob
and defiantly gloated in its triumph,
the city is turned into a veritable
slaughter pen. It requires no fine
reasoning to discern the honorable
motives that sometimes impel
commonly law-abiding men under stress
of peculiarly great provocation to
commit deeds of violence in defense
of their women; but such cases only
are even remotely excusable when
done in hot blood, and when redress
by extreme penalty of the law is
doubtful. Such conduct goes beyond
the law, and becomes license when
winked at. License is the privilege
of the baser sort as well as the best
citizens. The effect of lynch law
were the victim only concerned in
many instances would be only beneficial
to the community. But it brutalizes
the man who participates in it. The situation
in Atlanta is a typical product of the
brutalizing influence of the mob spirit.
Had the mob, formed under the guidance
of cool headed leaders, sought out and
slain the perpetrators of outrages on
white women, few would have moralized
on the occurrence, save to deplore
conditions that induced such
summary justice. But the Atlanta
mob can lay claim to no such justification.
The better citizens met and
denounced the conduct of the rabble,
but the harm is done, and it lies in
this—we have been pointing out to
the negro the lesson of the lynch law
and commending him to obedience.
Innocent law-abiding black men were
slain in the streets of Atlanta. The
confidence of the negroes must be
shaken. They see that protection
promised them by the white man
taken away from them. Hatred is
the offspring of dependence and distrust.
It is not the reprisals of the blacks,
bad as they must be, the people
of Georgia have to fear, but a
deep instilled sense of injustice,
abused confidence and suspicion of
the law. There is a lesson in this
terrible chapter for both races, perhaps,
but we should give heed to the
one for the white man. Suppress the
mob, uphold the law even when our
spirits struggle against its strictures.
Did some of our best citizens always
assert themselves as much to enforce
the law as they do sometimes to break
it, there never would be occasion for
mob justice. The jury dodger can
not tell how far he is responsible for
the situation in Atlanta.

The romantic ones sigh for the
days of old when kings, attended by
their knightly following, visited each
other in state; but these overlook

the transcendent possibilities of the
modern day pageant. Times change
and manners change with them. What
would those old-fashioned courtiers
have thought of a fleet of modern ves-
sels of war, in their triple plate armor
solemnly performing the knightly
duty? Some Austrian warships are
coming to make a call on us in ac-
knowledge, according to interna-
tional etiquette, of our visit a year
ago. It was ever with the mailed
glove nations saluted each other,
even in a social way, and the warship
is no mean successor to the knight
of old.

Before New York has succeeded in
digesting government ownership of
railroads, she is called upon to
swallow Hearst's yellow journal sys-
tem of political economy. It's a nau-
seating mess.

Paul O. Stensland was lined up in
police court with a lot of pickpock-
ets in New York yesterday. There is
little regard shown for the feelings
of a common pickpocket by city po-
lice.

That 506-pound octopus caught in
Mississippi Sound is small compared
with the billion dollar octopus Sec-
retary Moody is after.

If this rain is the result
of two storms from opposite direc-
tions meeting here, we are glad they
both came this week.

We are waiting to hear some
sparkling epigram, expressive of his
pleasure at coming home, fall from
the lips of Stensland.

Out at Colorado Springs they are
celebrating the memory of Col. Pike.
He was the man who said, "Pike's
peak or bust."

IOWA IDEA.

Governor Cummins Still Clings to
Tariff Revision.

Churdam, Ia., Sept. 26.—Governor
Cummins last night opened the Re-
publican state campaign here, speak-
ing to a large audience of 1,500 busi-
ness men and farmers. His address
was devoted largely to setting right
his attitude towards the tariff. Gov.
Cummins said in part: "I retract
nothing that I have said with regard
to the tariff. My views are unchanged
and within the ranks of the party
I will labor as earnestly as I can,
not for a general revision of the
schedules, for that I have never fa-
vored, but for reducing certain du-
ties which our experience during the
past nine years has shown to be ex-
cessive."

"My contention has always been
that the revision of the schedules
must be in harmony with and based
upon the protective policy; that our
duties that are too high should be
lowered, but not so as to impair
their efficiency as protective duties."

BOOKER WASHINGTON

Advises Negroes of Atlanta Not to
Retaliate.

New York, Sept. 26.—"As a rule
I never discuss mob violence except
when I am in the south, but in this
case I make an exception," said
Booker T. Washington, referring to-
night to the race riots in Atlanta.
He will state that in my address in
Atlanta to the National Negro Busi-
ness league a few days ago I spoke
plainly against the crime of assault-
ing women and against resorting to
lynching and mob law as a remedy
for any evil. I would strongly urge
that the best white people and the
best negro people come together in
council and use their united efforts
to stop the present disorder. I
would especially urge the negro peo-
ple of Atlanta and elsewhere to exer-
cise self-control and not make the
fatal mistake of attempting to retal-
iate."

Dead Than Living.

Powder Springs, Ga., Sept. 26.—
Discovering that his 16-year-old

He fired six bullets into her body.
Bullard, immediately after commit-
ting the crime, went to his brother
and informed him of what he had
done.

"Ruth is better dead than living
with such shame upon her," said Bul-
lard.

LIGHTNING'S PRANKS.

Strikes Pond of Water and Mr. John
Moize.

Jackson, Tenn., Sept. 26.—The
lightning played an unusual freak on
the farm of Alf Moize in the Tenth
district last Saturday. During a
thunder storm the lightning struck
a pond of water, and glancing off,
struck Mr. John Moize in the heel,
three hundred yards away. It also
struck Miss Jessie Moize on the arm.
She was further away than John.
The same bolt of lightning killed two
hogs near the pond.

CHILD CONVICTED OF KILLING.

tence in Iowa Court.

Albia, Iowa, Sept. 26.—Oscar Na-
ppler, aged 8, was found guilty of
manslaughter in the district court to-
day. The Iowa juvenile law does not
cover murder cases and the boy will
be sentenced this week just as if he
were a man. The crime of which he
was found guilty was the killing of a
playmate of 7 years. He is the
youngest defendant on this charge
ever tried in the state.

WITH STATEMENT

Denies Every Charge Gener-

Says He Is Not Employed by Standard
Oil Company and Never Has
Been in His Life.

TELLS TENNESSEE EPISODE.

Dallas, Tex., Sept. 26.—The fol-
lowing statement was made public
tonight by Senator Joseph W. Bailey
in reply to criticisms of him and his
record which have been circulated
during the past few days:

"The Democrats of Texas have
not forgotten that exactly this same
kind of a fight was made on me
when I first elected to the senate six
years ago. After I had won the
senatorship in a fair contest before
the people, a coterie of dissatisfied
politicians made a desperate attempt
to defeat my election by the legisla-
ture. The present agitation was
largely inaugurated by the same
men, with some outside assistance,
and is predicated upon exactly the
same transactions.

The Tennessee Central.

"The first step in this campaign
of malevolence and detraction was
to have a purported interview with
the Hon. Roger C. Sullivan, of Illi-
nois, assailing me sent broadcast
over the country. Mr. Sullivan
promptly denounced that interview
as a falsehood made out of the
whole cloth.

"The next step was to circulate
the story that the Tennessee prop-
erties for which I am the attorney,
belong to the Standard Oil company;
and they sought to impose this false-
hood upon the fair-minded and jus-
tice-loving Democrats of Texas.
Some of the men who are circulat-
ing that story know, and all of them
could have learned with very little
inquiry, that the Standard Oil com-
pany had no interest in or connec-
tion with these properties and that
they were owned by H.C. Pierce, J.C.
Van Blearom, W. H. Thompson and
many other leading business men of
St. Louis.

"The third step in the process
was to pretend that the testimony
given by Mr. Pierce disclosed a se-
cret employment of me in connec-
tion with those properties. Some of
the very men engaged in this move-
ment have been complaining for
months that I was the attorney of
these very properties, and they knew
all about it a year ago.

"The statement, so industriously
circulated by some, that I 'put \$13-
000,000 worth of securities in my
pocket, to do with them as I pleased'
is little less than ridiculous. I did
not have \$13 worth of securities in
my pockets."

services for Judge Jacob A. Ambler,

liam R. Day who paid a high tribu-
te to the dead jurist. The Stark

ed resolution in memoriam. The bar
also escorted the body to Salem,
where additional funeral services
were held this afternoon under the
auspices of the Columbiana county
bar.

RAILROAD SANDWICH IS FATAL

G. J. Hartman, Superintendent of
Santa Fe Branch, Ptomaine Victim

Holly, Colo., Sept. 26.—A ham
sandwich, eaten in a hurry at the
Santa Fe depot last Thursday, caused
the death here late last night of
George J. Hartman, general superin-
tendent of the New Holly and
Swink railroad, recently acquired by

Natchez, Miss., Sept. 26.—The children of Abraham Goldstein, held on a charge of uxoricide, will appear before the justice of the peace Thursday and testify that their father stabbed their mother, Jennie Goldstein on the night of September 10, inflicting a wound in the abdomen. This wound caused the woman's death. The testimony of the children, as learned today by Coroner Darrow, is to the effect that on Monday night, September 10, the father threw a cigarette in his wife's face, then threw a chair at her head. The chair missed the human target, exasperating Goldstein, who seized a knife, and plunged the blade into her side.

Taking Testimony in Unusual Case.

New Orleans, Sept. 26.—The taking of testimony for an unusual case in admiralty was begun here today.

The question involved is whether the stowing of the Catalina by the propeller of the steamer Baroda justifies the collection of about \$500,000 damages by the Catalina's owners.

The accident occurred last January in the South Pass of the Mississippi river and caused the Catalina's cargo of nitrate of soda to dissolve and become a total loss.

LOTS OF HONEY.

H. R. Robertson, Bee Fancier, Is Successful.

"Speaking about bees, I will say that Mr. W. M. Jones is not the only man in the city who can justly lay claim to being a bee fancier," Mr. H. R. Robertson, formerly a member of the school board and a popular Illinois Central carpenter, declared this morning. "I am something of a bee man myself and own 105 hives on Dr. S. B. Caldwell's place on West Broadway. I got last year from my hives a total of 2,000 pounds and sold the honey for 15 cents the pound. This makes a total of \$300 derived from the work of the busy little bees. Mr. Jones has gone into the business a little heavier than I, and has more hives. He has Italianized his hives thoroughly, but I have not the time to devote to the industry."

Lindo Murphy, "King of Bootleggers," will be brought back to Paducah this afternoon and placed in the county jail, pending action in the federal court on the charge of illicit whisky selling. SWITZERLAND IS
NOT A REPUBLIC

It Is a Federation of Loosely
Joined Cantons.

They Number Twenty-Two and En-
joy Almost Entirely Local
Self-Government.

SOMETHING ABOUT COUNTRY

Berne, Switzerland, Sept. 26.—Switzerland is not a republic like the United States, although we are accustomed to call it such. It is a federation of twenty-two members, called cantons, each having independent sovereignty concerning its own local affairs and being united with the others in an alliance for mutual protection, economy and convenience. Each canton has its own constitution. The constitutions differ in detail, and any of them may be amended or revised without consulting the other cantons. Theoretically any one of the twenty-two cantons can withdraw from the partnership whenever it pleases by giving proper notice, but practically any such movement would result the same as the attempt of the southern states to withdraw from the American Union. The other cantons would promptly whip it back into the fold regardless of the terms of partnership.

The federation began in the year 1291 with three cantons, known as "the forest states," that lie around the Lake of Lucerne, and to that period belongs the legend of William Tell, who, according to the popular belief, was one of the leaders of the movement. Within 60 years eight other cantons had joined the partnership; in 1513 there were 13, and finally in 1815 the sisterhood of states numbered twenty-two, and has remained so until now, with an aggregate population of 2,920,000, of whom 1,724,957 are Protestants, 1,190,000 Catholics and 9,090 Jews.

There have been several revisions of the articles of co-partnership. The present constitution was made in 1874 the previous one in 1848. The tendency for years has been toward centralization, taking away the independence of the cantons and conferring more and more power upon the federal authorities. The federal jurisdiction has gradually been extended by legislation also. As is frequently said of our own congress, the Swiss parliament has kicked the articles of federation full of holes, and the articles of federation full of holes, and crawls back and forth through them whenever it wants to pass a law that is not strictly authorized by its terms.

The perpetual independence and neutrality of Switzerland and the inviolability of its territory are guaranteed by Great Britain, Germany, Austria, Russia and Portugal by the treaty of Paris signed in 1815.

Cantons As States.

The cantons correspond with our states, and have just about as much independence and sovereignty. Perhaps our states have a little more. Each canton is supreme in its own local affairs, in its courts, schools, public works, etc., etc., but at the same time there is an appeal from the cantonal courts to those of the federation, there is a minister of education to oversee all the schools of the country, and when a railroad crosses a boundary it becomes a federal affair. So long as it remains within the boundaries of a canton it is a local affair. But the government owns all the railways except the funiculars which run up to the tops of the mountains.

The federal government is responsible for the peace and good order of the country, for the conduct of its foreign affairs, for declaring war and concluding peace. It controls the army and every citizen is bound to perform military service for three years. It manages the mails, the telegraph, telephone, railway and water way transportation; it has the exclusive right to coin money, issue currency, determine weights and measures, grant copyrights and patents, regulate quarantine and the public health. It controls the liquor traffic. It has a monopoly of the manufacture and sale of arms and explosives. It controls the foreign trade and collects export and import duties. It supervises proceedings in bankruptcy. It regulates fishing, shooting and other sports. It controls the forests because they are necessary to protect the sources of the streams, and in detail has really a wider jurisdiction than the federal government of the United States.

The receipts from all sources go into the federal treasury and the expense of the public service is paid from it. There is a law permitting citizens to obtain exemption from military service by the payment of a tax, the proceeds of which go into the local treasury of the cantons wherever it is paid. The federal gov-

ernment controls the universities and all institutions for the higher education of men and women.

Legislative Branch.

The legislative branch of the government is very much like ours, and consists of two chambers called the federal assembly. One of them, the council of state, consists of forty-four members, two from each canton, who are paid \$4 a day for terms of three years while in attendance upon their duties, and 5 cents mileage from and to their homes, from the treasuries of their cantons.

The other chamber, called the national council, consists of 145 members, or one for every 20,000 population, who are elected by universal suffrage and a secret ballot for terms of three years, and are paid the same as the members of the council of state, except that the money comes from the federal treasury. Ecclesiastics, both Protestants and Catholics, are not eligible for either branch of the assembly.

There are two sessions a year, beginning the first Monday in June and the first Monday in December, and continuing for two or three months. During the recesses the important committees are required to visit the different cantons in order to permit the people to make known their wants and opinions. A new speaker or presiding officer is elected at the beginning of each session, and the same man cannot be re-elected without an intervening term.

Rescue of a Merchant.

A prominent merchant of Shongou, N. Y., J. A. Johnson, says: "Several years ago I contracted a cough which grew worse, until I was hardly able to move around. I coughed constantly and nothing relieved my terrible suffering until I tried Dr. King's New Discovery. Before I had taken half a bottle my cough was much better and in a short time I was entirely cured. I surely believe it saved my life. It will always be my family remedy for colds." Fully guaranteed; 50c and \$1.00 at all druggists. Trial bottle free.

A man would have to have a lot of money to feel there was any that could be spared for people who have not any.

A Scientific Wonder.

The cures that stand to its credit make Bucklen's Arnica Salve a scientific wonder. It cured E. R. Mulford, lecturer for the Patrons of Husbandry, Waynesboro, Pa., of a distressing case of Piles. It heals the worst Burns, Sores, Boils, Ulcers, Cuts, Wounds, Chilblains and Salt Rheum. Only 25c at all druggists.

SENATOR BAILEY WORRIES FRIENDS

Baltimore Sun Comments on His Employment by Standard Oil Company.

NEWS OF NATIONAL CAPITAL

Washington, Sept. 24.—It is inconceivable here among the friends of Senator Bailey, who have so long watched with admiration his brilliant public life, always on the side of the people against the aggressions of capital, that he should have accepted a legal fee from any company, knowing that it came to him by reason of his official position or the influence he brought to the bar because he was a member of the United States senate.

It is more conceivable that Senator Bailey was legally employed because he was known to be familiar with state statutes and one of the great constitutional lawyers of the day. Nearly half, if not two-thirds, of the senate is made up of lawyers, most of whom have a large legal practice, and it is unjust to suppose that this practice has been obtained only by virtue of their offices.

The amount of fees received by these practicing senatorial attorneys cuts no figure in the case. Some of the senators work hard at their legal profession during the interim of the senate sessions and do not make as much as their salary from the government, while others realize large fees, especially those who look after corporation interests.

It would be best if all of the latter should be disqualified of seats in the senate, for as Mr. Bryan says, it is hard to serve two masters. These days a man of brains and capacity cannot afford to serve as a senator without he has outside competence. His salary would not pay his actual living expenses at Washington.

While the government is squandering millions upon millions a year at home and in its possessions, it should at least double the pay of its lawmakers so that they would have no good excuse to go outside for a living. In fact, the rapid pace we are going is pretty tough on a poor man. He is ever so worthy, popular and meritorious, he is cut off from holding office either by excessive entrance fees in a primary election or the exactions upon his salary when elected.

But returning to Senator Bailey, the Baltimore Sun, in its leading editorial today, believes absolutely in his innocence and concludes as follows:

"It is to be hoped that Mr. Bailey will pass through this ordeal without even the smell of fire on his garments and satisfy his people that 'all his conduct has been sincere.' He is one of the ablest of American statesmen and his ability is recognized. If his great gifts and attainments should prove to have been used against the people, whom he professes to serve, it will make a profound impression upon the country and tend to destroy confidence in public servants."

In Civil Service.

Simplified spelling in civil service examinations will be accepted the same as the old style, according to an order just issued by the civil service commissioners. Many inquiries on the subject reached the commission from persons desirous of taking examinations for the governmental service who were fearful lest they should suffer in percentage of efficiency.

Rural Routes.

Rural route No. 1 is ordered established November 16 at Powder Mills, Hart county, serving 300 people and sixty families. Claud L. Cashon is appointed regular and Chester Bryan substitute, rural carrier on route No. 7 at Mayfield.

WATERSPOUT

STRUCK STERN OF PACIFIC STEAMER NEAR MEXICO.

City of Sydney Had Her Stanchions Wrenched Away But Weathered the Storm.

San Francisco, Sept. 24.—Almost by a miracle the Pacific mail steamer City of Sydney, which arrived here, escaped wreck in a huge waterspout off the Mexican coast, near Acapulco. The waterspout struck the stern of the vessel, wrenching away the stanchions and throwing the passengers into a panic. The spout swept with rapidity of whirlwind but the ship weathered it.

BAILEY'S FOES CANNOT AGREE.

Unable to Settle Upon Man to Make the Senatorial Race.

Dallas, Tex., Sept. 25.—The opponents of United States Senator Bailey have so far been unable to settle upon any candidate to put against him before the legislature in January next. Former Attorney General M. M. Crane, of Dallas, former United States Senator Horace Chilton, also of Dallas, and Railroad Commissioner O. B. Colquitt, of Terrell, are mentioned. None of these has indicated a willingness to contest with Bailey. Mr. Colquitt today said: "I am not running."

INTERVENTION IS CUBA'S ONLY HOPE

Little Possibility of Bringing Two Extremes Together on Middle Ground.

PALMA MAY RESIGN OFFICE.

Bulletin, Havana, Sept. 22.—A congressman whose relations with the administration are close, asserts this morning that President Palma and members of his cabinet probably will resign today and intervention is expected.

Sugar Trust Responsible.

London, Sept. 22.—The sugar trust and not President Roosevelt is responsible for Cuba maintaining her independence so long, but the time has come when the United States cannot longer refrain from taking most vigorous action. This is the view expressed by the Saturday Review, noted for its anti-American sentiment, in comment on the Cuban situation.

Only By Intervention.

Havana, Sept. 22.—Peace for Cuba, unless accomplished through American intervention seems to be further away today than when Taft and Bacon began negotiation to harmonize the opposing factions.

The arrival here today of three of the largest United States battleships and two cruisers in addition to those already here has had little effect on the insurgents in the field and when the leaders of the revolution were apprised of the big squadron now in Cuban waters they greeted the information with the declaration: "They cannot come to the bush."

The executive committee of the Moderate party today voted unanimously to accept whatever disposition of the controversy Taft and Bacon may decide upon in the hopes that such concessions would induce the Liberals to yield similarly. The latter, however, have not as yet signified their willingness to accept the decision of the American mediators.

Rumored Palma Will Resign.

It is rumored today that Palma and the members of his cabinet and the representatives and senators elected last December will resign tomorrow thus conceding practically all that the insurgents have been contending for and opening a way for a settlement of the difficulty without American intervention. Palma declined to be interviewed on the subject and other members of the government stoutly denied the rumor.

Taft and Bacon Abandon Hope.

Taft and Bacon have practically abandoned hope of finding a middle ground and fear a decision in favor of either side would result in no more than temporary tranquility for the island.

It is their belief that American occupation is the only way to end the civil warfare, and it is not denied that intervention must be followed by American sovereignty.

Taft has cabled President Roosevelt regarding the gravity of the situation, and Roosevelt is expected to dictate the future program of his commissions.

A demonstration was made today by armed revolutionists within a mile of the scene of the peace conference, General Acosta, with 300 insurgents encamped at Lajisa, west of Minister Morgan's villa at Mariapao, and half a mile eastward were the rural guards, militia and mounted police.

KILLED FRIEND

Marion, Ill., Sept. 24.—Mistaking him for a negro, with whom he had quarreled, A. E. Farley, ambushed and killed his friend, Adolph Williams, at a railroad camp near here. The murderer fled and was captured after a long chase, in which bloodhounds were used.

Cleveland for Cientifugos.

Washington, Sept. 25.—It was reported to the navy department today that the cruiser Cleveland had sailed from Havana for Cientifugos to reinforce the Marietta at that port.

TWO MAGISTRATES UNDER INDICTMENT

Supervisor Johnson Explains That The Two Men Have Teams on the Roads.

NOTHING CONCEALED BY THEM

If the charges of the grand jury are sustained Magistrates John Thompson and W. E. Lane, members of the best families in the county, will be subjected to a fine of from \$50 to \$100. They were indicted by the grand jury for taking financial part in the building of county roads. The statutes provide that no magistrate or county official shall employ himself or have any part in county public improvements, and it is alleged that they have received money for teams and have actually hired themselves on public road work. The indictments were returned Tuesday but re-submitted on account of a technicality and returned anew yesterday afternoon when the grand jury made its final report.

The Road Supervisor's Story. Road Supervisor Bert Johnson was seen this morning and made a statement.

"Yes," he stated, "both the defendants in the indictments have been working teams on county roads, but it was not contrary to law. For ten years Magistrates Lane and Thompson have been working teams in road repairing, and they continued after they were made magistrates. Take Lane's case and you will see where he is working or had been working one or two teams in county road improvements at \$1.50 per day. The regular team hire is \$3 per day and you can see where he is really making the county a present of \$1.50 per team.

"I heard of the matter when it first reached the grand jury and tried to appear before the board. For some unknown reason they would not grant me a conference, and I was unsuccessful. Had I been permitted to make an explanation I think no indictments would have been returned.

"The defendants have taken time by the forelock and secured a lawyer. Mr. J. C. Flournoy has been employed and he says that the indictments can be quashed."

Magistrate Lane is from district, No. 3, and resides on the Husbands road. His teams have been working on a road being built in front of property owned by him.

Thompson resides in the Florence station neighborhood in district, No. 6. Both are well-known and the indictments came as a surprise.

The road supervisor states that the fact that the two magistrates worked teams was not kept a secret and was known to every one; and was furthermore not for profit but to hasten the completion of county road work.

Lane and Thompson are Democrats.

County Judge R. T. Lightfoot charges that the indictments returned against Magistrates Lane and Thompson were instigated through malice by persons who had been refused county road work.

Judge Lightfoot said: "The statutes do not say that a magistrate can not work by the day, but that he shall not do county road work by the contract."

HEARST

AGAINST THE FIELD IS SITUATION IN NEW YORK.

Buffalo, Sept. 24.—It is Hearst against the field today. Boy—Boo-oo! That little bird makes me weep!

Boy—No, sir. I forgot my air gun.

Dr. Pongo—Your appetite is poor? Elephant—Very poor. I don't think I've eaten a ton in two days.

More Gold From London.

London, Sept. 25.—The United States today secured between \$1,500,000 and \$2,000,000 of this week's gold supply, totaling \$2,500,000. The price was 78s.

A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not hard work, nor over physical exertion that does it, but poor stomach work. With poor, thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption. Fortify the body at once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.

A little book of extracts, from prominent medical authorities extolling every ingredient contained in Dr. Pierce's Golden Medical Discovery will be mailed free to any address on request by postal card or letter. Address Dr. R. V. Pierce, Buffalo, N. Y.

Many years of active practice convinced Dr. Pierce of the value of many native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for tonic, alterative and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the names of the ingredients on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either. This fact puts it in a class all by itself, bearing as it does upon every wrapper the badge of honesty, in the full list of its ingredients.

The "Golden Medical Discovery" cures, weak stomach, indigestion, dyspepsia, torpid liver and biliousness, alteration of stomach and bowels and all catarrhal affections no matter what parts or organs may be affected with it. Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Much imitated but never equaled. Sugar-coated and easy to take as candy. One to three a dose.

Ascension Celebrated in Colorado Springs.

Colorado Springs, Col., Sept. 25. The people of Colorado Springs have completed elaborate preparations for the celebration next week of the 100th anniversary of the discovery of Pike's Peak. The date of the celebration anticipates by two months the actual centennial anniversary, the change being made because the weather conditions at this time are more favorable to outdoor festivities than later in the year. It was on November 26, 1806, that Pike attempted the descent of the mountain which bears his name.

MATE HELD

CHARGED WITH ASSAULT AND BATTERY.

Accused of Striking Negro Deck Hand With Standard Off a Wagon—\$200 Bond.

Charles Hill, a steamboat mate, was presented in police court this morning on the charge of assault and battery and the trial lasted for more than an hour.

Hill was accused of assaulting a negro deck hand employed on the steamer Clyde. He was alleged to have taken a "standard" from a trans fer wagon to do his work. Wylie Coleman, the negro, was successful in dodging and escaped serious injury. He sustained a severe bruise on one arm in warding off the blow. The evidence conflicted and at the conclusion of the trial the mate was held to the grand jury on the charge of assault and battery. He gave bond in the sum of \$200.

Other cases: John Haggerty, disorderly conduct, continued; Goolie Graves, colored, petty larceny, continued; Nettie Beckenbaugh, alias Irene Clemmons, obtaining money by false pretenses, two cases, alleged to have secured a few dollars on bogus checks, continued; Jim Morgan, drunkenness, \$1 and costs.

FIREMEN ON LAKE SHIP MUTINY

Employees on Steamer C. B. Hill Say Boat Is Not Seaworthy.

Detroit, Sept. 26.—Firemen on the steamer C. B. Hill, formerly the Anchor line Delaware, mutinied today when the vessel was abreast Belle Isle and compelled the captain, J. H. Coleman, to return to Detroit. The firemen declare the boat is unseaworthy. The steamer sprang a leak last night in a heavy sea in Lake Erie. Captain Coleman says the leak does not amount to anything, and no members of the crew except the firemen made any complaint. He threatens to take the case of the firemen to the federal court.

BOATS AGAIN PLY MISSOURI

Renewal of River Traffic Causes Big Demonstration at Kansas City.

Kansas City, Mo., Sept. 26.—The renewal of steamboat traffic on the Missouri river, after a lapse of more than ten years, was celebrated today when the steamer Lora, with freight from St. Louis, docked at this city. Whistles blew, bells clanged and thousands cheered when the Lora was seen approaching, conveyed by local river craft. The movement for a boat line on the Missouri originated here and grew out of the fight of Kansas City merchants for reduced freight rates. Regular traffic between here and St. Louis will be instituted as soon as suitable boats can be obtained.

Hooligan's Pals. "Happy Hooligan" at the Kentucky Tonight.

Trip Around the World" is an entirely new and up-to-date one. There has been left in it no stale jokes or music. The scenery, costumes and effects are all new, and in the company are a number of clever specialty artists, and the chorus has been selected with regard to the musical ability as well as to the personal charm of its members.

"She Looks Good to Father."

Mr. and Mrs. John T. Powers, "The Players," in S. W. Pascoe's latest and most successful musical farce comedy "She Looks Good to Father" will be the attraction at The Kentucky Thursday night. The company supporting the Powers is a carefully selected one while the scenic equipment is fine.

"In Old Kentucky."

"In Old Kentucky" with its merry little pickaninies, its lovable mountain heroine, its various realistic episodes and "Queen Bess," the fleet-footed Kentucky thoroughbred that ever won a race, will be at The Kentucky Friday night to delight theatergoers of this city. The management promises the best company that has ever appeared here and the pickaninny contingent has been augmented and many new and attractive features added for this season's tour, which, by the way, is the fourteenth for this remarkable play, which, like the Brook of Lord Tennyson, bids fair to run on forever.

Fort Smith, Ark., Sept. 26.—Dr. J. L. Blakemore and E. L. Halsell, of Muscogee, arrived in the city this morning to examine the exhumed body of Cleora Davis, who was shot to death at his home in the territory

a week or so ago. The purpose of the examination was to determine whether or not explosive bullets were used, and it was found they were. Mr. Halsell a relative of the deceased, states that D. Tired, Nervous Mothers

Make Unhappy Homes—Their Condition Irritates Both Husband and Children—How Thousands of Mothers Have Been Saved From Nervous Prostration and Made Strong and Well.

Mrs. Chester Curry

Mrs. Chas. F. Brown

A nervous, irritable mother, often on the verge of hysterics, is unfit to care for children; it ruins a child's disposition and reacts upon herself. The trouble between children and their mothers too often is due to the fact that the mother has some female weakness, and she is entirely unfit to bear the strain upon her nerves that governing children involves; it is impossible for her to do anything calmly.

The ills of women act like a firebrand upon the nerves, consequently nine-tenths of the nervous prostration, nervous despondency, "the blues," sleeplessness, and nervous irritability of women arise from some derangement of the female organism.

Do you experience fits of depression with restlessness, alternating with extreme irritability? Are your spirits easily affected, so that one minute you laugh, and the next minute you feel like crying?

Do you feel something like a ball rising in your throat and threatening to choke you; all the senses perverted, morbidly sensitive to light and sound; pain in the abdominal region, and between the shoulders; bearing-down pains; nervous dyspepsia and almost continually cross and snappy?

If so, your nerves are in a shattered condition, and you are threatened with nervous prostration.

Proof is monumental that nothing in the world is better for nervous prostration than Lydia E. Pinkham's Vegetable Compound; thousands and thousands of women can testify to this fact.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.
